

Ligums Family Transition Medicine Grant
2020 - Application Rating Form

Application Title:	
PI #1 – Name:	
PI #2* – Name:	
Budget:	\$
Reviewer – Name:	
Date:	

Section A. Note: A single “No” in this section disqualifies the application for review.	Yes	No
One PI is from Pediatrics		
One PI is from Adult Care		
Quality Improvement (QI) Coach Identified		
QI focus, demonstrating measurable results, i.e., NOT hypothesis testing or basic science		
Application Within 6 page maximum		
Proposal is clearly identified as Planning or Implementation		

Section B. Note: 1. Each item should be rated from 1 - 5 (1=Poor; 2=Fair; 3=Good; 4=Very Good; 5=Excellent) 2. The percentage “Weight” is only to provide a sense of comparative importance in your review. 3. Total all your ratings at the bottom of the page.			
	Weight		Score
1. Abstract	5%	Adequately summarizes proposal	
a. Global Aim	10%	Targets quality improvement for late adolescents / young adults who: 1. Have severe chronic conditions originating in childhood; and 2. Are transitioning from pediatric to adult care	
b. Problem to be Addressed	5%	Meaningful, practical, clearly tied to target patient population	
c. Background	5%	Adequately describes Need and Significance of problem	
d. Methods, clearly describing:	30%	QI model, “Plan, Do, Study, Act” (PDSA) cycles to be followed	
	10%	How patient and/or family are directly engaged	
		Includes timeline of activities	
e. Evaluation Plan	30%	Includes concrete and measurable expected outcomes and metrics	
f. Dissemination Strategy	10%	Includes opportunities for spread to other departments, areas or diseases	
g. Literature Cited		Appropriate	
		Current	
2. PI Bio Sketches reflect experience with:		Transition Health Care	
		Quality Improvement	
		Patients with complex chronic conditions	
3. Budget		Includes Allowable costs; does not include unallowable costs	
		Costs are justified	

Section C. Overall/General Review		
Significance	Important problem	
	Project will meaningfully address improving Transition Health Care experience	
Project Design	Appropriate to goals and objectives	
Feasibility	Can be achieved within one year	
Applicant’s knowledge and experience with:	Transition Health Care	
	Conducting and completing Transition Health Care oriented studies	
Budget	Appropriate, adequate to proposed activities, well justified	

Total (Maximum Possible = 115)
