

Join our One Amazing Team

Become A Nurse At The #1 Pediatric Cardiology And Heart Surgery Center

- Texas Children's Heart Center has been the No. 1 pediatric heart center in the nation for cardiology and surgery for seven years in a row.
- Each year, we see 34,000+ patients annually at our three hospitals and clinics. We are an integral part of the team and care for patients with a wide range of congenital heart disease, with patient care beginning in-utero and continuing through adulthood.
- We care for our cardiac inpatients across 8 floors, caring for patients from infancy through adulthood.
- We have 118 cardiac-dedicated inpatient beds as well as 4 CVORs and 4 Cath labs. Our Heart Center performs more than 1,100 cardiac surgeries and 1,600+ cardiac catheterizations annually.
- Texas Children's is committed to the growth and development of our nurses and is consistently recognized as a top place to work by the Houston Business Journal.
- New comprehensive Heart Center opening February 20, 2024 at Texas Children's Hospital North Austin.
