

The Nation's Leading Pediatric Heart Center

For nearly 70 years, Texas Children's Heart Center has cared for patients with the most complex heart conditions, seeing more than 34,000 patients performing 1,100 surgeries and 1,600 cardiac catheterization annually, with outcomes among the best in the nation. In 2023, for the seventh consecutive year, Texas Children's was ranked No. 1 in the nation for pediatric cardiology and heart surgery care by *U.S. News & World Report*.

The Heart Center, which is located in the Texas Medical Center, encompasses eight floors dedicated exclusively to cardiac care and equipped with the latest technology. The Heart Center team includes world-renowned leaders in pediatric cardiology, congenital heart surgery, cardiovascular anesthesiology, cardiac intensive care and adult congenital heart disease. The breadth of expertise across the Heart Center ensures every patient has access to the expert diagnosis and treatment they need, with multidisciplinary specialists who work together to create individualized care plans for each patient.
